VOLUME 12

PUBLISHED FOR
THE COMPANY OF BIOLOGISTS LIMITED
CAMBRIDGE UNIVERSITY PRESS

LONDON AND NEW YORK

1964

Contents of Volume 12

Part 1, March 1964

BARBER, A. N. *and* GEER, J. C. Studies on the teratogenic properties of trypan blue and its components in mice. 1

SHERBET, G. V. *and* LAKSHMI, M. S. A study of carbohydrate metabolism in *Planorbis exustus*. 15

HUGHES, A. The innervation of supernumerary and replacing grafts of limbs in *Eleutherodactylus martinicensis*. 27

JURAND, A. *and* SELMAN, G. G. Yolk utilization in the notochord of newt as studied by electron microscopy. 43

RÜDEBERG, S.-I. The anlage of the cerebellar nuclei in chick after early extirpation of the vestibular region. 51

ANDERSON, D. T. The embryology of *Dacus tryoni* (Diptera). 3. Origins of imaginal rudiments other than the principal discs. 65

McCALLION, D. J. *and* LANGMAN, J. An immunological study on the effect of brain extract on the developing nervous tissue in the chick embryo. 77

YAJIMA, H. Studies on embryonic determination of the harlequin-fly, *Chironomus dorsalis*. II. Effects of partial irradiation of the egg by ultra-violet light. 89

NEW, D. A. T. *and* STEIN, K. F. Cultivation of post-implantation mouse and rat embryos on plasma clots. 101

LOEWENSTEIN, J. E. *and* COHEN, A. I. Dry mass, lipid content and protein content of the intact and zona-free mouse ovum. 113

RAVEN, C. P. *and* VAN DER WAL, U. P. Analysis of the formation of the animal pole plasm in the eggs of *Limnaea stagnalis*. 123

DOUARIN, N. LE. Isolement expérimental du mésenchyme propre du foie et rôle morphogène de la composante mésodermique dans l'organogenèse hépatique. 141

EDE, D. A. *and* KELLY, W. A. Developmental abnormalities in the head region of the *talpid*^{3} mutant of the fowl. 161

Part 2, June 1964

GEILENKIRCHEN, W. L. M. Periodic sensitivity of mechanisms of cytodifferentiation in cleaving eggs of *Limnaea stagnalis*. 183

DENIS, H. Phosphoprotéine-phosphatase et résorption du vitellus chez les amphibiens: une étude cytochimique, électrophorétique et immunologique. 197

NEWBURGH, R. W., CLARK, A., WILSON, A. *and* SCHOLZ, M. Effect of various inhibitors on several enzymes and other biochemical substances in chick embryo explants. 219

HUGHES, ARTHUR. Further experiments on the innervation and function of grafted supernumerary limbs in the embryo of *Eleutherodactylus martinicensis*. 229

ZOTIN, A. I. The mechanism of cleavage in amphibian and sturgeon eggs. 247

TAKEKOSHI, SHOICHI. The mechanism of vitamin A induced teratogenesis. 263

HUGHES, GILLIAN C. The radiosensitivity of oögonia and oöcytes in the chick embryo. 273

FRANCHI, L. L. *and* MANDL, ANITA M. The ultrastructure of germ cells in foetal and neonatal male rats. 289

EDIDIN, MICHAEL. Transplantation antigens in the mouse embryo. The fate of early embryo tissues transplanted to adult hosts. 309

GEBHARDT, D. O. E. *and* NIEUWKOOP, P. D. The influence of lithium on the competence of the ectoderm in *Ambystoma mexicanum*. 317

SAXÉN, L., TOIVONEN, S. *and* VAINIO, T. Initial stimulus and subsequent interactions in embryonic induction. 333

EDE, D. A. *and* KELLY, W. A. Developmental abnormalities in the trunk and limbs of the *talpid*^{3} mutant of the fowl. 339

KIENY, MADELEINE. Etude du mécanisme de la régulation dans le développement du bourgeon de membre de l'embryon de poulet. II. Régulation des déficiences dans les chimères 'aile-patte' et 'patte-aile'. 357

Part 3, September 1964

OZBAN, N., TANDLER, C. J. *and* SIRLIN, J. L. Methylation of nucleolar RNA during development of the amphibian oöcyte. 373

PECK, D. The rôle of tissue organization in the differentiation of embryonic chick neural retina. 381

POURTOIS, M. Comportement en culture *in vitro* des ébauches dentaires de rongeurs prélevées aux stades de prédifférenciation. 391

LOEFFLER, C. A. *and* JOHNSTON, M. C. Permeability alterations in amphibian embryos caused by salt solution and measured by tritiated thymidine uptake. 407

EBLING, F. J. *and* HERVEY, G. R. The activity of hair follicles in parabiotic rats. 425

HEILPORN-POHL, V. Effets de l'actinomycine D sur la morphogénèse et la métabolism des acides nucléiques chez l'embryon de poulet. 439

EYAL-GILADI, H., EYAL, Z. *and* ESHEL, S. A microscopic study of chlorpromazine (largactil) treated axolotl larvae. 447

LAVIN, LORA H. The transfer of coelomic eggs between frogs. 457

JOHNSON, ELIZABETH *and* EBLING, F. J. The effect of plucking hairs during different phases of the follicular cycle. 465

DEOL, M. S. The abnormalities of the inner ear in *kreisler* mice. 475

SIMS, R. T. The relationship between size and vascularity in the spinal cord of developing *Xenopus laevis*. 491

LATNER, A. L. *and* SKILLEN, A. W. Lactate dehydrogenase isoenzymes in foetal and neonatal tissues. 501

MCCALLION, D. J. *and* TROTT, J. C. Transient embryonic antigens in the chick. 511

HALE, L. J. Cell movements, cell division and growth in the hydroid *Clytia johnstoni*. 517

EDE, D. A. *and* ROGERS, ANNE M. The use of inherited abnormalities in studies on the embryogenesis of *Dermestes maculatus* (Coleoptera). 539

EDE, D. A. An inherited abnormality affecting the development of the yolk plasmodium and endoderm in *Dermestes maculatus* (Coleoptera). 551

Part 4, December 1964

BUZNIKOV, G. A., CHUDAKOVA, I. V. *and* ZVEZDINA, N. D. The rôle of neurohumours in early embryogenesis. I. Serotonin content of developing embryos of sea urchin and loach. 563

TARKOWSKI, ANDRZEJ K. Patterns of pigmentation in experimentally produced mouse chimaerae. 575

MUCHMORE, WILLIAM B. Control of muscle differentiation by embryonic neural tissues. 587

JAINCHILL, JOHN, SAXÉN, LAURI *and* VAINIO, TAPANI. Studies on kidney tubulogenesis. I. The effect of actinomycin D on tubulogenesis *in vitro*. 597

HELL, ANNA. The initial synthesis of haemoglobin in de-embryonated chick blastoderms. I. Metabolism of the blastodisc cultured *in vitro*. 609

HELL, ANNA. The initial synthesis of haemoglobin in de-embryonated chick blastoderms. II. The effect of metabolic inhibitors on the blastodisc cultured *in vitro*. 621

KOŚCIELSKI, BOGUSŁAW. Polyembryony in *Dendrocoelum lacteum* O. F. Müller. 633

NOGAMI, HIROSHI. Digital malformations in the mouse foetus caused by X-radiation during pregnancy. 637

LE DOUARIN, NICOLE. Induction de l'endoderme pré-hépatique par le mésoderme de l'aire cardiaque chez l'embryon de poulet. 651

CORNER, MICHAEL. Rhythmicity in the early swimming of anuran larvae. 665

IOANNOU, J. M. Oögenesis in the guinea-pig. 673

GALLERA, J. *and* IVANOV, I. La compétence neurogène du feuillet externe du blastoderme de poulet en fonction du facteur '*temps*'. 693

YAMADA, TUNEO *and* ROESEL, MARION E. Effects of actinomycin D on the lens regenerating system. 713

DEOL, M. S. The origin of the abnormalities of the inner ear in dreher mice. 727

TARKOWSKI, ANDRZEJ K. True hermaphroditism in chimaeric mice. 735

WIRSÉN, C. *and* LARSSON, K. S. Histochemical differentiation of skeletal muscle in foetal and newborn mice. 759

MOFFAT, LYNETTE A. *and* BELLAIRS, A. D'A. The regenerative capacity of the tail in embryonic and post-natal lizards (*Lacerta vivipara* Jacquin). 769

SMITH, LOIS JEAN. The effects of transection and extirpation on axis formation and elongation in the young mouse embryo. 787

RAVEN, CHR. P. The formation of the second maturation spindle in the eggs of various Limnaeidae. 805

STEPHENSON, N. G. *and* TOMKINS, J. K. N. Transplantation of embryonic cartilage and bone on to the chorioallantois of the chick. 825

MURAKAMI, UJIHIRO *and* KAMEYAMA, YOSHIRO. Vertebral malformation in the mouse foetus caused by X-radiation of the mother during pregnancy. 841

DETTLAFF, T. A., NIKITINA, L. A. *and* STROEVA, O. G. The rôle of the germinal vesicle in oöcyte maturation in anurans as revealed by the removal and transplantation of nuclei. 851
